

PRIMROSE HALL[®]

PEONIES

Catalogue

Welcome to the PRIMROSE HALL PEONIES CATALOGUE

We are an RHS gold award-winning, independent, family-run nursery, based in rural Bedfordshire. We are peony specialists and love growing a diverse range of beautiful peonies.

Our passion for peonies has driven us to develop an extensive collection of peonies, with over 300 varieties in commercial production of all colours, shapes and fragrances - from the popular to the rare. We are sure that you will find an exquisite peony that is perfect for your garden.

We launched a new peony at RHS Chelsea Flower Show 2019 - 'All That Jazz' which is a wonderful ITOH peony and we are continuing to add rare and newly released peonies to our collection as well as developing our own breeding programme. We hold the Plant Heritage National Collection of Itoh hybrid peonies.

We hope you will be impressed by our latest range and our displays that show off these stunning flowers. Be sure to come and visit our stands at various RHS shows around the UK. Look out for details of where to find us on our website which you will find at www.primrosehallpeonies.co.uk

As always please do get in touch with your questions and pictures, we love to hear from you! Why not sign up to our newsletter to receive exclusive information, advice, news and offers. You can also follow us on social media for videos, growing advice and our competitions!

WHAT MAKES OUR PEONIES SO SPECIAL?

Peonies are gorgeous, long-lived herbaceous perennial plants. They will bloom with often large, and sometimes beautifully scented, flowers and are sure to be a striking feature of any garden! Peonies have a luxurious elegance, yet are wonderfully low maintenance plants. Its easy if you follow the simple tips in our care guide. Some varieties have been known to live up to a century old!

Our peonies are lovingly grown, lifted as bare roots, potted and nurtured in our plant nursery until they are at least 5 years old, ensuring they are well established, mature, flowering plants.

A Primrose Hall Peony should flower from its very first season in your garden.

In 2019 our peonies were awarded a Gold medal by the RHS at Chelsea Flower Show. This was the first Gold to be awarded for peonies at the show for 8 years! We were so proud of our team.

With over 300 varieties in production you have access to many rare and unusual varieties of peony, some which have never been sold in the UK before. If you are in search of any particular variety our team will also be happy to try to source these for you.

We now grow all our plants in 100% peat-free compost. We are committed to doing all we can for the environment and making sure our nursery is sustainably run. Please see our website for more information about our environmental policy.

We LOVE peonies! Our team are committed to growing the best peony plants possible. Each one receives individual care and attention to make sure it is of the BEST quality.

We offer a **2-year guarantee** on ALL of our peonies. We so are confident you will be happy with your plant that if you register your peony at the time of purchase we promise to replace any plant that fails within the 2 years. For more information about this and terms and conditions, please check out our website primrosehallpeonies.co.uk

COLOUR - There is an extraordinary array of colours to choose from, from pure white, to delicate pinks, bright yellow or ruby red, or rich purple to light coral. Some peonies also have beautiful colourful foliage in the autumn.

LOCATION - All of our peonies look fantastic in a sunny border, but we also have a range of smaller peonies, perfect for pots or patios. We've included the average height that each variety typically grows to, as a guide, to help you decide where to position the plants in your garden.

FLOWERING TIMES - Different varieties of peony flower at slightly different times of the year. In the UK early peonies flower in April, mid-season peonies in May, and late-flowering in June. You can use our simple identifier charts at the end of the catalogue to find the right flowering season for your garden and the flowering time of each plant is also alongside each peony image.

FRAGRANCE - Some peonies have exquisite scent! We have identified which peonies will have a fragrance in our chart at the back and this information is alongside each image.

TYPES OF PEONY

INTERSECTIONAL

Itoh peonies are unusual, rare and interesting plants. They are a cross between an herbaceous and a tree peony. Some of them are highly sought after.

They have beautiful, often very large (even dinner plate sized) sometimes fragrant blooms in a diverse range of colours.

Their flowers can be single or double.

Intersectional peonies do often flower for a longer period than herbaceous peonies and have masses of flowers.

They are fairly compact, growing to about 75cm tall and they need little or no support - because of their tree peony framework. Itoh's die down in winter like herbaceous peonies - and return in the spring. They usually have striking foliage in autumn.

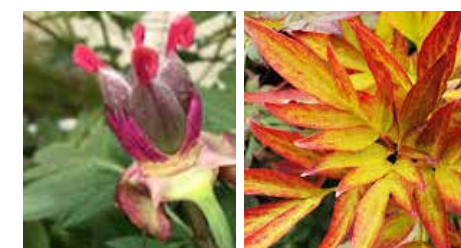

HERBACEOUS

The timeless classic! Herbaceous peony flowers can be single, semi-double or fully double and many are beautifully fragrant.

They range in colour from deep purple to pure white. Their blooms are one of the showiest in the garden!

They can be early, mid season or late flowering which means you can enjoy herbaceous peonies from April through to June. Peonies can also last for decades. They die down in the winter and re-emerge the following spring to produce an even better display than the previous year!

After beautiful blooms, some peony seed-heads can be simply stunning to see! Some plants also have very colourful autumn foliage.

OUR PROFESSIONAL PEONY FERTILISER is currently available for you to use in spring and as a late summer/autumn rejuvenator [see page 67 for more information](#)

WOODY (or TREE PEONY)

Tree Peonies are long-lived deciduous shrubs. They often have large, flamboyant flowers which are often fragrant, and come in a variety of colours. They make a real statement in the garden.

PATIO PEONIES

Patio peonies are the best choice for gardeners who would prefer their peonies to grow in containers. They are specially selected because of their compact growth habit and its ease of flowering in a pot, making them the perfect peonies for the patio, balcony or roof gardens. They feature strong stems and upright blooms. They are able to be planted in borders as they do well in any sunny position. Patio varieties have various types of flower shapes fully double, double and single flowers.

HERBACEOUS PEONIES

HERBACEOUS PEONIES

PAEONIA LACTIFLORA **ADOLPHE ROUSSEAU**

Historic variety with dark foliage, tinged, red. Large, double, dark red/maroon flowers with yellow stamens and red stigmas.

PEONY CARE TIPS

Follow these simple steps to grow beautiful, healthy peonies!

Don't bury it

When planting herbaceous, patio or intersectional peonies, the crown should not be more than 2 inches below the surface. You should be able to feel the crown.

Tree peonies should be planted at least 6 inches below the surface. For a container grown tree, plant it slightly deeper than the size of the pot it is in. It is important if the tree peony is grafted because it helps the plant establish roots.

Position

Plant your peony in full sunlight. Some varieties will tolerate partial shade, but generally the more sun the better.

Soil

Plant your peony in any fertile, free draining soil and it will be fine. They do not like to sit in water.

Feeding

If you have reasonable soil, your peony will not require much feeding. We offer 2 types of feed which can help it along:

- **Professional Peony Fertiliser (Spring)**
- **Professional Peony Summer Rejuvenator (Autumn)**

Care

Peonies can live for decades and are very low maintenance plants. They do not require loads of water or feeding.

When your (herbaceous or intersectional) peony begins to die down in the Autumn, cut it back to the ground and remove the dead leaves.

Some varieties will require support; we sell a standard peony support in 2 colours: burgundy or traditional.

HOW TO ORDER

Just visit our website
www.primrosehallpeonies.co.uk

Find us on social media at -

Sign up to our **newsletter** to keep updated about our latest **deals** and receive **exclusive discounts** and current information, such as which **RHS shows** you can find us at.

Our terms and conditions of sale are available on our website above.

LOVE Peonies has worked with RHS gold award-winning and specialist British peony grower, Primrose Hall Peonies, to curate a collection which can now be bought as cut flower for vases and arrangements.

Our **cut flower peony collection** can either be bought as stems, by variety, for weddings and events, or as beautiful peony bouquets, complimented with a selection of textured cut flowers to make up at home or send to a loved one as a **beautiful gift** by post.

We have also curated a wider collection of cut flower **peonies for florists** who are searching for more unusual varieties with consistent buds and blooms - these come in bunches of **60 stems** or more.

Peonies are one of the most popular flowers for **bouquets** both as gifts or for weddings, which is not hard to believe with their gorgeous, large and often scented blooms filling a vase, and any room, with beauty.

For the true peony lovers out there, our **cut flower peony collection** will be sure to bring a smile to your face.

Being able to work with a British grower means we can offer a wider variety of peonies than usual suppliers and for a longer seasonal window.

Bring joy, show your love, give the gift of peonies, with LOVE Peonies.
